<i>date:</i>	28.11.2016					
Description of activities	<p>Renewable Energy Sources are the main area of activity of the company EKSPERT- SITR Ltd. in recent years. In collaboration with a number of experts from the Association of Engineers and Technicians of Agriculture we started our activity within biogas plants' technology integrated with agricultural distillers or sewage treatment plants. We design:</p> <p>independent biogas plants or biogas plants integrated with the distillery or incineration, photovoltaics, wind farms, wastewater treatment plants. Company is currently implementing the following projects:</p> <ul style="list-style-type: none"> - The hybrid energy production system and ethanol production from biomass - The plant of energy production from biomass - OSIW-EKO Center for training and implementation of alternative energy, fuels and environmental protection - The plant of converting waste into electricity and heat - Power plant generating energy from waste and alternative fuel production plant from waste paper industry 					
Range of activities (please tick)	<input checked="" type="checkbox"/>	<i>pre-treatment systems</i>	<input checked="" type="checkbox"/>	<i>digestion systems</i>	<input type="checkbox"/>	<i>upgrading systems</i>
Type of company			Yes	No		
	<i>Technology supplier</i>		<input checked="" type="checkbox"/>			
	<i>End-user</i>		<input checked="" type="checkbox"/>			
	<i>Research unit</i>			<input checked="" type="checkbox"/>		
	<i>Consulting company</i>		<input checked="" type="checkbox"/>			
	<i>Engineering company</i>		<input checked="" type="checkbox"/>			
<i>Production company</i>			<input checked="" type="checkbox"/>			
Experience in research projects			<input checked="" type="checkbox"/>			
Other comments	<p>We develop solutions on behalf of our clients, but we also conduct development activities, the result of which are patent claims:</p> <p>"A method of hydrolysis of lignocellulosic material in a continuous process" ("Sposób hydrolizy surowca lignocelulozowego w procesie ciągłym") date of notification: 31.05.2011, notification under P. 395072</p> <p>"A complex system for sewage sludge management and other biomass, particularly as renewable energy sources" ("Kompleksowy system zagospodarowania osadów ściekowych i innej biomasy, zwłaszcza jako odnawialnego źródła energii") date of notification: 01.09.2008, notification under P.385987</p> <p>"A method of electricity, heat energy, fertilizer and/or feed and ethanol producing from agricultural products and waste products in agro-processing industry" ("Sposób wytwarzania energii elektrycznej, ciepłej, nawozów i/lub pasz oraz etanolu z produktów rolnych i odpadów poprodukcyjnych w przemyśle rolno przetwórczym") date of notification: 20.08.2008, notification under P.385950</p>					
Expectations from Record Biomap, e.g.	<p>The company is interested in finding consortium partners for possible projects, cooperate with research organisations.</p> <ul style="list-style-type: none"> - to find consortium partners for possible projects? - do you already know any funding call or other funding opportunities? - attend our planned workshops? - to find customers?
