	<i>E-mail:</i>	office@axiom.at			
	<i>www:</i>	www.axiom.at			
<i>date:</i>	28.08.2017				
Description of activities	<p>Axiom has more than 20 years experience in the membrane gas upgrading technology and offers biogas upgrading plants for customers in Europe. Axiom's proprietary biogas upgrading process is characterised by the high methane recovery (up to 99,8%) that is at the same time achieved at low energy consumption (<0,23 kWh/Nm³). Further upgrading process features include: flexible control system (patented), high operational reliability, low footprint (high plant compactness) and tailored design according to customer needs. In addition Axiom offers an unique biogas pretreatment and desulphurisation process based on chemical scrubbing.</p>
